More Than Just Books by Golemon Assistant Librarian, Helen Cozart

Have you considered participating in the Veterans History Project of the Library of Congress in your classroom? The VHP collects, preserves, and makes accessible the firsthand recollections of U.S. military veterans who served from World War I through more recent conflicts and peacekeeping missions, so that future generations may hear directly from veterans and better understand what they saw, did, and felt during their service. The experience of every service member is unique. Encouraging your students to participate allows them to learn critical organizational, communication, and thinking skills while they learn from a national hero. Faculty, you can get your guidance here while the packets for your students are here.

[What to do this weekend: WASP Homecoming in Sweetwater.](#) The Women's Air Service Pilots served during World War II testing planes and performing non-combat duties. During the annual Homecoming, they honor the women pilots who broke ground for those that follow.

As part of our [International Year](#), this week we are celebrating Laos and [Pi Mai](#), the Laotian new year. Lao New Year takes place in April, the hottest time of the year in Laos, which is also the start of the monsoon season. On the first day of this three-day festival, Laotians celebrate the end of the old year by cleaning their homes, villages, and Buddha images as well as spraying each other in fun. The second day is a day of no year, between the two years. On the third day, festivities start the new year.
